CERTIFICATIONS AND LICENSES

- GCP Professional Cloud DevOps Engineer Certification
- **AWS Certified DevOps Engineer – Professional**
- **Generative AI Leader Certification**
- AWS Certified Developer – Associate

SKILLS

- Cloud: AWS,GCP,AZURE ;
- Containers: Docker,ArgoCD,Kubernetes,Helm ;
- CI/CD: Jenkins,TeamCity,Octopus,GitHub Actions;
- AI: MLOps,Gen AI, Apache Airflow, MLflow,Vertex AI
- Mulesoft: anypoint,API manager,Exchange,Runtime;
- VCM: Github,Bitbucket,GitLab;
- Monitoring: Logic Monitor,New relic,Dynatrace;
- IaC/Config: Terraform,Ansible,Chef;
- Security/Scanning: SonarQube, Aqua, CodeQL, Trivy;
- Artifacts: JFrog,Nexus,Docker Hub;
- Scripting: Python,Yaml,Json, hell,Groovy

SANDYA KANDREGULA

DevOps/MLOps Engineer

sandya.kandregula.dev@gmail.com

+918919382187

SUMMARY

Senior DevOps/MLOps Engineer with 12+ years across AWS and GCP, specializing in Docker, Kubernetes, Helm, Terraform, and CI/CD (Jenkins, GitHub Actions), with MLOps experience using Airflow, MLflow, and Vertex AI. Delivered X%–50% faster deployments, $100K annual cloud savings, 99% model uptime, and 95% accuracy by automating pipelines, hardening security (SonarQube, Aqua, CodeQL, Trivy), and scaling cloud-native platforms.

EXPERIENCE

MLOPS ENGINEER, WIPRO PRIVATE LIMITED, VIZAG, INDIA

Apr 2025 — Current

Streamlined ML model deployment, reducing time by 30%, and automated data pipelines to increase efficiency by 40%. Collaborated with cross-functional teams to drive project success and implemented CI/CD for ML, boosting deployment frequency by 50%. Led training sessions to enhance team capabilities in MLOps, developed monitoring tools to ensure 99% uptime for models, and integrated cloud solutions to improve scalability and flexibility. Enhanced model performance, achieving 95% accuracy on key metrics. Project Summery

DEVOPS TECH LEAD, GENPACT INDIA PVT LIMITED, BANGALORE, INDIA

Mar 2024 — Apr 2025

Led cross-functional teams to accelerate software delivery by 30% and automated infrastructure provisioning, reducing costs by 25%. Drove a cultural shift towards DevOps, increasing team engagement by 35%, while mentoring junior engineers to build a high-performance team environment. Delivered projects ahead of schedule, improving client satisfaction by 20%, and optimized cloud resource usage to achieve annual savings of $100K. Project Summery

GCP DEVOPS ENGINEER, ENQUERO GLOBAL LLP, BANGALORE, INDIA

Dec 2021 — Feb 2024

- Build Tools: Maven,MS Build;
- OS: Linux,Windows,Rhel;

ACHIEVEMENTS

Regular participant in drives & run
Recognized as a Top 20 performer twice at Genpact for outstanding contributions and performance.
Genpact: Secured 1st prize in a Hackathon, demonstrating strong problem-solving and innovation skills.
Received an award in Wipro Victory League for exceptional performance and impactful delivery.

LANGUAGES

- English
- Hindi
- Telugu

Expert in GCP services, driving cloud efficiency and scalability, and automated infrastructure provisioning using Terraform to enhance reliability. Led cross-functional teams to deliver high-impact DevOps solutions, while facilitating training sessions to strengthen team capabilities in DevOps practices and tools.

AWS DevOps Engineer, Zevjet infotech Pvt Ltd, Madhapur, Hyderabad

Feb 2018 — Dec 2021

Migrated legacy systems to AWS, improving scalability and performance, and developed robust security protocols to ensure compliance with industry standards. Led cross-functional teams to enhance collaboration and project delivery, while training team members on DevOps best practices to foster a culture of innovation. Utilized containerization to improve application portability and operational efficiency. Project Summery

Technical Support Engineer , PKL Limited, Hyderabad, INDIA

Jun 2015 — Nov 2017

Automated infrastructure provisioning, supported more then 1500 team members ,saving 30% on operational costs, and implemented monitoring solutions that improved incident response time by 40%. Optimized cloud resource usage, resulting in a 20% cost reduction, and streamlined CI/CD pipelines, reducing deployment time by 50% Project Summery

DevOps Engineer, Kaivale Technologies, BANGLORE

Jan 2014 — May 2016

Streamlined CI/CD pipelines, reducing deployment time by 50%, and enhanced system reliability by achieving 99.9% uptime across services. Automated infrastructure provisioning, cutting setup time by 70%, and implemented monitoring solutions that improved incident response by 40%. Collaborated effectively with cross-functional teams to boost productivity and accelerate project delivery, while optimizing cloud resource usage to achieve a 30% reduction in operational costs. Project Summery

EDUCATION

B.Tech , Quantitative Management, Shri Vishnu Engineering college for women, India

2009 — 2013
